DAVIS WAY CONFERENCE

Will Be Held At This Place
This Morning At 10:30
O'Clock.

FIVE COUNTIES INTERESTED.

Visitors Will Be The Guests
Of The City And
County.

Prominent men from Todd, Logan, Simpson, Warren and other counties interested in the proposed Davis Way from Hopkinsville to Bowling Green will meet here to-day for another conference on the matter.

The meeting will be held at 10:30 this morning in the circuit court room, after which the visitors will be taken to Hotel Latham to dinner. In the afternoon the visitors will be taken in automobiles over the city and out on some of the county pikes, returning in time to see the ball game between Hopkinsville and Clarksville.

This will be the third county meeting in the interest of the Davis Way movement. The first was held August 3 at Elkton, when the Davis Way Association was organized with J. C. Penick, of Todd county, president, and County Attorney W. G. Davis, of Todd, as secretary.

An executive committee was appointed as follows, consisting of two from each of the counties through which the road runs, namely: Todd, Logan, Simpson and Warren; Todd, J. T. Page and E. B. Lindsay; Simpson, H. S. McCutcheon and K. W. Bradshaw; Logan, J. N. Edwards and R. G. Price; Christian, J. M. Morris and W. R. Elliott; Warren, Robert J. Dulaney and T. W. Thomas.

The second conference took place August 12 at Russellville.

Rush C. Watkins, of Louisville who originated the movement, has wired that he will be here. The Paducah Automobile Association is very anxious to have the road extended to McCracken county, and will have representatives at the meeting.

WORK BERNHARDT'S RECIPE

Ravages of Old Father Time Held Back by Constant Activity and Regular Habits.

It was Carlyle who, in his dogmatic fashion, declared that the only true happiness of a man was that of "clear, decided activity in the sphere for which by nature and circumstances he has been fitted and appointed." There is, perhaps, little in common between the grim old Scotchman and Mme. Sarah Bernhardt, and yet we find the vivacious Frenchwoman still a mistress of her art at sixty-seven, and just about to sail for her native land after a tour of America, during which in the course of 36 weeks she has given 285 performances, 90 of them at one-night stands, netting for herself a round quarter of a million dollars and for the theatrical managers probably double as much, giving voice to much the same view.

"Can you," a reporter for the New York Sun asked her in English, "leave behind you a recipe for youth and beauty?" The question was interpreted and Madame smiled and gave her hand a deprecatory toss, the grace of which was inimitable. "He is gallant, this young man," she said. "There is no secret. But, yes, work! Always I work. One grows old slowly who works, for there is the satisfaction of accomplishment. I could not be idle. I would be miserable. Always I must be doing something. Plenty of sleep, a sparing diet and not too much fresh air, so!" Later Madame voiced her sentiments even more expressively. "Health," she said, "comes from the good God, but I work like the devil."

SOMETHING NEW IN EGGS

Penguin Fruit May Soon Figure on American Hotel and Restaurant Menus.

Penguin eggs from South Africa may soon figure on American hotel and restaurant menus. Immense numbers of them are being gathered on several of the islands off the southern extremity of Africa, and one dealer down there has offered to introduce them to the United States if some one will pay for the transportation of a sample case. The eggs easily could stand the journey, as the fast steamers make the run from Cape Town to Southampton in 19 days, thus bringing the penguin nest and the American epicure within a little more than three weeks of each other.

Ostrich eggs also are being used as food in South Africa, though naturally to a limited extent, as even there they do not grow on every bush. In California and Arizona, where the ostrich has been acclimatized, these huge eggs are not less esteemed for the table, but to eat them generally is regarded as a wanton waste of possibilities in the way of feathers.

California is less scrupulous about eating the eggs of gulls and murrelets, which have been gathered in such untold thousands on the Farallone Islands that steps have had to be taken to prevent the extermination of these two sea birds. In Texas not only gulls and terns but herons have been robbed of their eggs with similar deplorable results.

Fault Brought Home.

Dr. James T. Docking, the president of Rust university, once discussed, in a Fourth of July address at Holly Springs, Miss., the treason of Benedict Arnold.

"Arnold's fault," he said, "was as plainly brought home to him as the fault of Fenimore Cooper's friend. Fenimore Cooper gave a friend a copy of his last work, inscribing on the fly-leaf the words:

"To John Blank, with the author's affection and esteem."

"A few months later Cooper came upon this same book at a second-hand dealer's. He bought it in and sent it to his friends again with a second inscription:

"This volume, purchased at a second-hand shop, is re-presented to John Blank with renewed affection and reiterated expressions of esteem."

An Eye to Business.

They helped him tenderly into the taxicab which had struck him and the chauffeur, taking his address, mounted to the seat.

Arrived at home, the driver helped him into the house.

"Thank you," the injured man remarked. "As it was not a serious affair, we'll let it drop. Probably I was—"

"There's a dollar-fifty due me," the chauffeur interrupted.

"A dollar-fifty? What for?" the other gasped.

"My register says it's a mile out here from where you got on. That's a dollar. And I always charge a half-dollar extra when I have to help a guy into the house!"—Lippincott's Magazine.

A Protest.

"I beg pardon," said the new arrival, "but it seems to me it's excessively warm here."

"Eh! What?" snorted Satan. "Evidently you forget where you are. This place is meant to be warm."

"Quite so, but there's such a thing as overdoing it."—The Catholic Standard and Times.

More Than She Knows.

"The last time I saw your husband he was trying to stop smoking. Has he stopped?"

"I don't know. You, of course, know that he is dead."

THE BOY AND THE BICYCLE

Fat Man Moved to Remorse After Witnessing Effects of Anger on Bike and Boy.

A fat man was complacently pursuing his way through a cross street. He carried an open umbrella and occasionally wiped his moist face on a large silk handkerchief.

Suddenly around the corner came a small boy on a bicycle. He turned so quickly that the fat man had no time to get out of the way. Nor had the boy any chance to sheer away from his bulky obstacle.

The front wheel struck the fat man a glancing blow, shaking his dignity and scraping his leg.

As for the boy, he and the bicycle went down with a crash. But the lad was up again in a moment and raising the bicycle bent over it solidly.

The fat man was mad. He was so mad that he sputtered incoherently, and then with a vicious swing of one of his tan shoes kicked a spoke out of the offending wheel.

"There," he roared, "I guess that'll teach you not to ride on the sidewalk!"

The boy stared at the dangling spoke.

"What did you do that for?" he whined. "It took me all the year to save up for that bike—and now look at it!"

And he knuckled his eyes with a grimy fist.

The fat man was touched. His rage suddenly vanished. He fumbled in his pocket and drew out a dollar bill.

"There, kid," he said, "take this and get the wheel fixed."

The boy let go of the machine and grabbed the bill.

"Say, you can have th' bike," he yelled, and scooted around the corner as fast as his legs would carry him.

TRAGEDY OF TOMATO VINE

Practical Person Makes Discovery After Neighbors Had Given Voice to Their Wonderment.

Now doth the amateur agriculturist flourish and wax proud at his Luther Burbank achievements, says the Brooklyn Eagle. One such nursed a lone tomato plant from delicate and sickly infancy to robust maturity. With all a mother's tender care he ministered to that plant. He watered it, brushed the dust off it, pleaded with it, encouraging it to better things. Then one day a member of the family rushed into the house with glad tidings. There was a real tomato on the vine.

What an assemblage there was about that plant! The block was depopulated temporarily. Amateur agriculturists climbed on each other's necks to view the wonder. The head of the house inspected it through a magnifying glass. His spouse clasped her hands and exclaimed: "At last we shall have our own salad from our own vine." Even the watchman from a row of empty houses nearby was called to look, and he remarked solemnly that he "never saw such a large tomato on such a small vine."

Then came along one of those horribly practical persons, who said it couldn't be, and had to have a closer look. He spoiled it all by his discovery that the tomato had been tied on with a string, and if you want to know who tied it on ask the woman who lives next door.

Know Your Work and Do It.

There is perennial nobleness and even sacredness in work; were he never so benighted, forgetful of his high calling, there is always hope in a man that actually and earnestly works; in idleness alone is there perpetual despair. Work, never so mammoth, mean, is in communication with nature; the real desire to get work done will itself lead one more and more to truth, to nature's appointments and regulations—which are truth. The latest gospel in this world is: Know thy work and do it. Know thyself—long enough has that poor self of thine tormented thee; thou wilt never get to know it, I believe. Think it not thy business, this of knowing thyself; thou art an unknowable individual; know what thou canst work at, and work at it like Hercules! That will be thy better plan.—Thomas Carlyle.

Nothing to Work On.

Gen. Horatio C. King, secretary of the Society of the Army of the Potomac, was narrating his memories of the Civil war. "We suffered many hardships on both sides," said General King, "but the Confederates suffered more. I remember a grizzled old negro who at the outbreak of the Spanish war applied for a place as an army cook. 'What experience have you had?' the old fellow was asked. 'I was cook, sah, fo' a Confederate regiment in sixty-fo'!' he answered. 'That is, sah, I had the job of cook, but, to tell the truth, I didn't work at it.' 'Why not?' 'There wasn't nothing to cook, sah.'"

Time Is Money.

"I want you to understand that my time is valuable. Time is money with me," snapped the man who had been held up.

"Is it worth as high as a dollar a minute?" asked the inebriant.

"As much as that, at least."

"Well, I was going to take up about two minutes talking to you, but since you are so all-fired expensive, I'll only use thirty seconds. Then you can give me the dollar and a half change, and we'll call it square."

ANCIENT SHEETS.

Newspapers Published in Hopkinsville Before The War.

Lafayette, Ky., Aug. 29.—We have in our possession two newspapers, which are probably older than any others now in existence that were ever published in Hopkinsville. One "The People's Press" published July 28, 1859, by Will D. Gentry & Bro., the motto of which was: "Here shall the Press the people's rights maintain, unawed by influence and unbribed by gain."

This was a Democratic paper and contains some very interesting reading in reference to the political issues of that time.

Among the prominent attorneys whose business cards appear on the first page are:

Arnold & Dabney, A. D. Rodgers, Joseph I. Landes, Hopkinsville, and John S. Spiceland, Canton, Ky.

The other paper, the "Hopkinsville Gazette," published May 1, 1847, by A. C. Goodall and E. N. Amoss, was a "Whig" paper and contains even more interesting reading matter than the other, having been published during the time of the war with Mexico. Nearly the whole of the first page is taken up by an article from the "National Intelligencer" in reference to "The Administration and the Army." The Administration was Democratic, Jas. K. Polk being president, and Gen. Zachary Taylor, who was at the head of the army, was a Whig. The article referred to shows very conclusively the venom and animosity felt by the Administration towards Gen. Taylor, although he had conducted the war very successfully.

The paper also contains a letter from Gen. Taylor to Gen. E. G. W. Butler, in which he gives a very interesting account of the battle of

Buena Vista, where he with an army of less than 600 men and about 4,000 volunteers repulsed Santa Anna with an army of more than 20,000 men.

There is also an article from "The Matamoros Flag" speaking of Col. Jeff Davis and his Mississippi veterans as the heroes of the battle-field of Buena Vista. There is also an article in reference to a meeting of the Whigs of the LaFayette Precinct, on Apr. 21, 1847, in which James Gholson was chairman and Ben. J. Hinton, secretary, the object of the meeting being to call a convention to nominate candidates for the various offices.

There are also many other interesting articles in reference to the war and politics.

Gen. Zachary Taylor is mentioned as a probable candidate for president.

Among the prominent advertisements we find the names of A. Gant & Sons, Jeffries & Trice, E. R. Edmunds, John P. Glass, McBath & Perkins, B. E. Gray, R. H. and A. J. Fraser and many others.

TO THE TRADE:

We take pleasure in announcing to you that we have organized what will be known as the Cayce-Jones Motor Company, in Hopkinsville, Ky., and our location will be on Virginia street, in a building known as the H. W. Dorris & Co. This building is being enlarged, covering the entire length of the block from 11th to 12th streets and 45 feet wide, which will give us the largest Garage and Repository for Automobiles in the state. This building will be equipped with the latest improved machinery, including lathes, electric drills, re-treading and vulcanizing plants. In fact we will be prepared to do any kind of repairing wanted on any kind of Motor Car. Our Superintendent, Mr. A. B. McDonalds is regarded as the finest mechanic in the state and all the repair work will be under his supervision. Our prices are going to be very reasonable, and we believe it will be to your interest to bring your cars to us when they need repairing or adjusting, as an Automobile should only be worked on by skilled mechanics.

We have secured the agency for the sale of the well known and popular E. M. F. and FLANDEKS CARS in the counties of Christian, Hopkins, Trigg and Todd, and have samples of their 1912 models on hand now, and if you are in the market for a car you can do no better than buy either of these makes. We have also on our repository floors the Chalmers and Hupmobile, which will be demonstrated and sold by Mr. J. E. Cooper, who is an expert in handling Autos, and will take pleasure in showing you any of these cars. We hope to be favored with a call from you in the near future.

THAT AWFUL BACKACHE

Cured by Lydia E. Pinkham's Vegetable Compound

Morton's Gap, Kentucky.—"I suffered two years with female disorders,

my health was very bad and I had a continual backache which was simply awful. I could not stand on my feet long enough to cook a meal's victuals without my back nearly killing me, and I would have such dragging sensations I could hardly bear it. I had soreness in each side, could not stand tight clothing, and was irregular. I was completely run down. On advice I took Lydia E. Pinkham's Vegetable Compound and Liver Pills and am enjoying good health. It is now more than two years and I have not had an ache or pain since I do all my own work, washing and everything, and never have the backache any more. I think your medicine is grand and I praise it to all my neighbors. If you think my testimony will help others you may publish it."—Mrs. OLLIE WOODALL, Morton's Gap, Kentucky.

Backache is a symptom of organic weakness or derangement. If you have backache don't neglect it. To get permanent relief you must reach the root of the trouble. Nothing we know of will do this so surely as Lydia E. Pinkham's Compound.

Write to Mrs. Pinkham, at Lynn, Mass., for special advice. Your letter will be absolutely confidential, and the advice free.

Every Month Near Death.

Foster, Ark.—Mrs. Fannie Ellis, of Foster, says: "I was sick for seven years, and half the time could not stand on my feet. Every month, I was very near death. I tried Cardui, and in two months, I was cured, and am now stout and healthy. My friends all ask me now what cured me. My looks are a testimonial to Cardui." No matter how serious or long-standing the trouble, Cardui will help you. It is a mild, vegetable, tonic remedy, especially adapted to relieve and cure the common womanly ailments. It relieves womanly pains and restores womanly strength. Try Cardui.

NEXT THING IN ENTERPRISE

Moving Picture Privilege at Fashionable International Wedding Should Sell for Good Sum.

The promoter of sporting events had hardly seated himself in his modest office when a male person of unmistakably English exterior opened the door and approached him affably.

"Old chap!" said he, "I represent Lord Harduppe, old chap. I'm his manager and all that sort of—"

"Lord Harduppe, who is to marry Miss Nothyng-Butte, the American millionaire?" queried the promoter.

"The same, old chap. The wedding takes place Tuesday week. His lordship naturally could not call upon you in person, but any arrangement that I may make with you will be quite satisfactory to him, I assure you."

"What's his lordship's game?" asked the promoter of sporting events.

"Does he want me to pull off a prize fight at his bachelor dinner, or what?"

The manager of his lordship smiled mysteriously, drew his chair a bit closer to the other's and whispered a few words.

"What!" cried the promoter. "No!"

"Yes, really; upon my word, old chap!" said his visitor. "You shall have the full American rights. All his lordship asks is 10,000 down and 40 per cent. of the gross receipts. You know, of course, old chap, that it's quite unprecedented socially, and all that sort of thing, but his lordship needs the money, as you Americans say, and, really, it's such a piping chance, he can't afford to let it pass. It will be the easiest thing in the world, you know, to hide the machine among the flowers at the altar. Why, my word, old chap, you ought to be able to book this thing in every theater in your blooming country!"

And thus, for the first time on record, was sold the moving-picture privilege at a fashionable international wedding.—Brooklyn Times.

GUARANTY OF HIS SILENCE

Presence of Masterful Wife in Church Stopped Objectionable Noisy Man Thought Was Singing.

Unexpectedly a city pastor who encouraged congregational singing gained a new parishioner. Keen though his delight in hearing his people sing, there was one member of his flock whose endeavors he never encouraged. But the man sang without encouragement, much to the discomfort of pewholders anywhere near him, who claimed that his loud, unmusical voice threw them out of time and tune.

Repeated complaints convinced the minister that somebody would have to assume the responsibility of silencing the ambitious singer. He decided that the man's wife was best fitted for the job. Owing to a difference in religious views husband and wife attended different churches, but the minister knew her, so he called and explained his predicament. She was genuinely surprised.

"Do you mean to say he sings?" she said.

"Tries to," she thought.

She thought she should have to come there to church, said.

"I shall be glad to see you," said the minister, "but what effect will that have on your husband's singing?"

The look she gave him was more significant than words, and they meant a good deal.

"John will never open his mouth when I am around," she said. And John never has.

ATTACK OF THE OCTOPUS

Experiments Show the Cephalopod Cannot Drag Down Man Except When Attached to Rocks.

There have been made abroad experiments with an octopus, in a specially devised tank of sea water, in order to test the truth of the many stories told of monster cephalopods dragging human victims to the sea bottom.

In the tank with the octopus there was placed a "dummy" of the same specific gravity as man, and this was baited with a crab. Attracted by this tempting morsel, the octopus made for the figure, seized it in its powerful arms and tried to drag it under water, without success. It then urged its body toward the edge of the tank, and holding the glass with some of its arms, it dragged its prey beneath the surface and crushed the crab-shell with its powerful jaws.

It is believed that these experiments afford proof that the octopus can only drag its victims far below the water near rocks to which it can attach its suckers. There is one spot in the Bay of Naples where these creatures attain a large size and now and then a fisherman is reported missing. It is thought that such disappearances are due to the unfortunate man being caught by the leg by a concealed octopus and dragged under water. In the case of such a repulsive and powerful creature as the octopus it is difficult to separate fact from fiction.—Harper's Weekly.

FIRST PANAMA CANAL PLAN

Spain Surveyed a Waterway Route Across the Isthmus Just 384 Years Ago.

It is just 384 years since Spain made the first exploration for a canal route across the Isthmus of Panama, says the St. Louis Globe-Democrat. Those were the spacious times of Charles V. France and De Lesseps were a little earlier than the United States and Goethals in planning for a waterway across that neck of land between North and South America, but Spain was centuries ahead of both in taking a survey of the ground for a short cut between the world's two big oceans. Charles' engineers saw the feasibility as well as the desirability of a canal across the isthmus, but, although Spain was the richest of the world's nations at that day, she saw that this task would be large. Moreover, foreign and domestic politics interfered with the prosecution of her plans, although some work upon them was done. And at some conspicuous point on the line of the waterways a monument will have to be erected by the United States to the memory of Balboa, the discoverer and the first explorer of the isthmus.

EDITOR GUESSED THE TRUTH.

Table chatter has led to more than one secret being divulged to the world. When Lord Mayo, the viceroy of India, was assassinated and speculation was rife as to his successor, Mr. Delane, the famed editor of the Times, was sitting at dinner with Sir William Bull. During the course of the evening Sir William turned to Delane and said: "Lord Northbrook was asking me the other day whether the climate of India would suit him." The Times editor made a suitable reply, and soon after rushed off to his office. Next morning the paper he so ably managed announced that Lord Northbrook, the under-secretary of war, had been appointed viceroy of India. It was perfectly true, but Mr. Delane had merely guessed the truth.—Oscar Frichet, in "No. 10 Downing Street," National Magazine.

PALEFACE BISCUITS A MENACE.

"Paleface biscuits and three square meals a day are depopulating the United States of noble redmen," says H. M. Harjo, a wealthy Indian resident of Okmulgee, Okla.

"Before the coming of civilization the Indian thrived on beef and corn. Since he has been getting three meals a day his constitution has deteriorated. Naturally, the Indian isn't overfond of work, and the modern dishes are weakening his inherent stamina."

THIS WAS PERFECT HEROISM

Dr. Franz Mueller of Vienna, Victim of Bubonic Plague, Isolated Himself and Died.

Heroism has been defined as "the brilliant triumph of the soul over the flesh," that is to say, over fear—fear of suffering, of sickness, of isolation and of death. An instance of this dazzling and glorious concentration of courage is given in Mr. Frederick Bowland Marvin's recent book, "The Excursions of a Book Lover."

Dr. Franz Mueller of Vienna, who fell a victim to the bubonic plague when that disease was first under bacteriological investigation in that city in 1897, contracted the malady from bacilli in culture tubes. When he became certain that he was infected he immediately locked himself in an isolated room and posted a message on the window pane:

"I am suffering from the plague. Please do not send a doctor to me, as in any event my end will come in four or five days."

At once a number of his associates, all of them young physicians, with much to live for and with full knowledge of the chances to which they would expose themselves, stepped forward, and not only offered their services, but in some cases begged to be sent to Dr. Mueller. The patient refused to permit it and died alone within the time predicted.

At the end he wrote a farewell letter to his parents and placed it against the window, so it could be copied from the outside, and then burned the original with his own hands, fearful that it might be preserved and carry out the mysterious and deadly germ.

DOUBLE ACTION PRESCRIPTION.

On a wet and bitter night in winter old Dr. B. was summoned from his snug home to attend a farmer threatened with pneumonia, says Lippincott's Magazine. The farmer's wife, a little woman resembling a scared bird, reported that the patient called for hot punch, but that she awaited the doctor's permission before giving it.

"Make it," said Dr. Baird. "Make it as soon as you can, strong and hot, and let me see it."

The little woman soon fluttered in with the smoking punch. The doctor took it from her hands, examined it, smelled it, then drank it off and smacked his lips in critical satisfaction.

"Exactly," he said. "Give your husband one just like it, only half as much."

BEST REFERENCES.

When the language of business is applied to the practices of politics, as in this from Success Magazine, the effect may be instructive as well as startling.

Two negro men came up to the outskirts of a crowd where a senator was making a campaign speech. After listening to the speech for about ten minutes, one of them turned to his companion and asked, "Who am dat man, Sambo?"

"Ah don' know what his name am," Sambo replied, "but he certainly do recomen' hisself mos' highly."

YOUTHFUL THIEF.

Eight-year-old Anna Garry of Wilkes-Barre, Pa., who was arrested the other morning, is one of the most precocious child burglars the police have had to deal with for some time. Amongst the loot she had stowed away were found seven silk dresses, a savings bank with a considerable sum of money in it, two pocketbooks containing \$4.50, two umbrellas, two white parasols, a red sweater, three pairs of silk stockings, three rings, five stickpins, a gold-handled umbrella and a shirt waist.

QUEER RELIC OF CIVIL WAR

On Delaware River Island Is Old Cannon Through Whose Wheel Grew Lofly Elm.

A small island near the mouth of the Delaware river was used by the federal authorities during the Civil war to store captured confederate guns and other war materials, as well as for the detention of prisoners. When the ammunition was removed at the close of the war one mounted gun was overlooked. When it was first placed on the island a tiny elm tree was breaking the soil between the heavy wheels of the gun carriage. Since then the elm has become sadly twisted and distorted. The body, deflected by the gun, found its way to freedom between the spokes of a wheel, forcing them apart as it grew larger. The gun has since dropped to the ground and lies half buried in the mold, but the tree still supports the crumbling wheels in position. Hundreds of ex-confederate soldiers have visited the little island to see this old war relic, and a crippled veteran of Lee's army makes a tidy sum carrying visitors to and from the mainland in a launch.

COMPULSION

Mr. Holdrite—Do you sell furs for ladies?

Dealer—Yes, sir. Do you want to buy a set for your wife?

Mr. Holdrite—No, I don't; but it looks as though I'd have to.

ROUGH TRAVEL IN PAPUA.

Rapids 120 miles long were discovered in the interior of Papua by the recent expedition of Mr. Stamford Smith, the administrator who returned to civilization after his reported massacre by natives. The party built rafts to descend the rapids. Their rafts were overturned, and the party strewn along the river for miles. It took five days to reunite, and when all were gathered together again they found that provisions, tents and baggage were lost, and they had 300 miles over unknown country before them. Although the rain was heavy, the expedition was 30 hours without water, as the coral valleys absorbed it as it fell.

SWEEP BY CLODBURST.

An appalling storm swept over the Tauber valley, in North Germany, a few days ago, making terrible havoc throughout the countryside. The region was surprised by what is described as a cloudburst, and three villages lying along a small hill stream, were overwhelmed by the sudden swelling of the torrent, which became a roaring river 600 feet wide. A shoemaker's house was first carried away, the whole family numbering eight, being drowned, almost without warning. The stream swept into the next village of Palmarr, where in a few minutes of forty houses only three remained standing.

WHERE COLLEGE MEN LIVE HIGH.

"When I was in the Imperial university here in Tokyo," a Japanese newspaper man said to me, "my father gave me \$3 a month. I paid for my room, light and food \$1.20 a month; for tuition, 50 cents; for paper, books, etc., 30 cents; and this left me \$1 for pocket money expenditures, including the occasional treat of eating potatoes with sugar!" In such Spartan simplicity the victors of Mukden, Liaoyang and Port Arthur were bred.—Clarence Poe, in World's Work.

THEN HE GOT HIS.

She—I consider, John, that sheep are the stupidest creatures living. He (absent-mindedly)—Yes, my lamb!—Sketch.

ITS STYLE.

"I see in some colleges they want to introduce a course in courtship." "Yes; a system of co-education, as it were."

Thursday's Games.

Clarksville 8, Vincennes 7.
Jackson 9, Henderson 1.
Cairo 6, Fulton 2.
Paducah 4, Hopkinsville 3.

Wednesday's Results.

Paducah 10 Hopkinsville 1.
Jackson 6 Henderson 3.
Cairo 5 Fulton 0.
Clarksville 3 Vincennes 2.

All the leaders had off days Wednesday and Thursday. Paducah beat Hopkinsville, Clarksville beat Vincennes, Jackson beat Henderson and Cairo beat Fulton both days. These surprises have bunched things considerably, though Fulton still holds its relative position.

A new series will begin to-morrow, this being an off day.

The game here to-day is not scheduled and does not affect the percentage column. The Clarksville team has been considerably changed since it was here last, the present lineup being as follows:

Left field, Heck, ss; Zimmerman, 2b; Anderson, 2c; Garrett, 1b; DeRose, cf; Taylor, lf; Gosnell, rf; Armstrong, c; W. Anderson, pitcher. Applegate and Priest, pitchers.

The game will begin at 3 o'clock promptly and the T. C. and I. C. trains will be held until after the game.

Hot Number.

Paducah, Ky., Sept. 1.—For excitement the game between Hopkinsville and Paducah yesterday exceeded any that has been played this season. Up to the last half of the eighth inning the score stood 3 to 0 in favor of the visitors. Paducah went to bat in this inning and by continuous hitting and on two outs got three men across the plate and tied the score. In the ninth Nickol singled, went to second on Poland's sacrifice, to third on Pickering's single and scored when Webber hit him in the back with the ball as the runner was going home. The features were Pickering's throw to the plate in the sixth, retiring Lyons, and Fogg's accurate throw from deep short to the plate, retiring Jones in the ninth. The score:

	R.	H.	E.
Hopkinsville	3	7	1
Paducah	4	11	1

Batteries—Glass and Huhn; Nickol and DeRose.

Flies And Bunts.

Harold Irelan, Hopkinsville's star shortstop, has been sold to the Philadelphia Nationals, at a price considerably above the draft price of \$300. Irelan's home is at Burnett Creek, Ind., and he played last year with the Wabash team. He came to the Moguls at the beginning of the season and played in 60 of the 63 games of the first half, making a batting average of .283 and a fielding average of .888. He has steadily improved as a player and is conceded to be the best shortstop in the league. Lloyd, of Paducah, has been sold to the team from manager Nairn at \$100. On Wednesday, the deal being completed by the team officials here, a conversation over the phone. It is not believed that the

sale will interfere with this season's work, but it may be that Irelan (by the way his name is spelled without a d) will have to report at once. A draft has been made for the purchase price, and it will be known in a day or two when he will have to leave.

Irelan is a fine young fellow, gentlemanly, courteous and tractable and his habits are good.

He is expected to make good in the higher company to which he goes.

Vincennes has been handicapped this week by the illness of Campbell and Bowers.

Troy Puckett, sold by Paducah for \$500, has gone to join the Philadelphia Nationals. He was known at Paducah as Brown. He is a college pitcher and has a bright future in baseball. He has terrific speed and an excellent assortment of curves.

Pop Nairn put in a new pitcher picked up at Paducah, whose name was Glass, and gave him a tryout Thursday. We was "broken" to pieces by 11 hits and lost the game 4 to 3. At this stage of the game it is better to stick to the regular pitchers and give them the right kind of support.

Paducah has a new pitcher named Patton, from Omaha, who was taken sick the day he arrived.

Shinn, Clarksville's centerfielder, is out of the game for the rest of the season with a crippled foot.

Huhn and Glenn.

The Vincennes paper's are having it with the Hopkinsville exchanges as to which is the better catcher, Glenn, of the former team or Huhn, of the latter. Any unbiased person over the league would unhesitatingly say Huhn, who has it on the Hoosiers

adds much to the enjoyment of a good dinner, and we wish to call everybody's attention to the
